

## **BOTTLEWASH ADDITIVE**

### **ABSTRACT OF THE INVENTION**

5       An alkaline bottlewashing concentrate effective for removal of mold and  
cleaning/protecting surfactant which is a C<sub>4</sub> to C<sub>20</sub> alkyl diphenylene oxide disulfonate,  
an ethoxylated alcohol sulfonate, an alkyl polyether phosphate ester, an aryl polyether  
phosphate ester, an alkylaryl polyether phosphate ester, a polycarboxylated ethylene  
oxide condensate of a fatty alcohol, or a mixture thereof. The cleaning composition is  
10   compatible with polyethylene terephthalate.
